BANKSY

ART AND
PUNK ROCK MUSIC
AS A FORM OF PROTEST

In the 70s and 80s punk rock music spread supporting strong ideologies against injustice and the establishment.

“London Calling” is a song written by the British punk band the Clash in the 80s to remind the danger of nuclear power soon after the accident occurred in 1979 in an island in the U.S. when a nuclear power plant started to release radioactive gas.

The cover of the album has been transformed in a graffiti by the mural artist Banksy: The character is smashing an office chair instead of guitar probably to react to a money-making society.
